1 COVID-19 impact estimates include mortality and morbidity claims of approximately \$11 million with no offsetting impact from longevity in the guarter.

² Tax effected at 24%.

In the second quarter, consolidated net premiums totaled \$3.2 billion, an increase of 4.3% over last year's second quarter, with an adverse net foreign currency effect of \$119 million. Compared with the year-ago period, excluding spread-based businesses and the value of associated derivatives, second quarter investment income increased 3.7%, reflecting a higher average asset balance. Average investment yield was flat at 4.63% in the second quarter compared with 4.64% in the prior year.

The effective tax rate for the quarter was 22.1% on pre-tax income.

The adjusted operating effective tax rate for the quarter was 22.5%, compared with the expected range of 23% to 24%.

Anna Manning, President and Chief Executive Officer, commented, "This was a record level of earnings for us, and importantly it included strong contributions from many of our business segments. In addition, growth in organic new business was good and we had another active quarter for

capital deployment into in-force and other transactions. COVID-19 claim costs came down substantially this quarter, and our underlying non-COVID-19 mortality was favorable in many markets.

"On the capital front, we deployed \$121 million into in-force and other transactions, and increased our quarterly dividend 9.6% to \$0.80 per share. Our balance sheet remains strong, and we ended the quarter with excess capital of approximately \$1.0 billion. This quarter continues to demonstrate that our global platform can perform well in a range of economic environments."

Long Duration Targeted Improvements

In the first quarter of 2023, the Company will adopt Accounting Standards Update 2018-12, Financial Services – Insurance (Topic 944): Targeted Improvements to the Accounting for Long-Duration Contracts ("LDTI"). The Company estimates the adoption of LDTI will decrease:

- retained earnings by \$500 million to \$800 million, net of tax, as of December 31, 2021;
- retained earnings by \$1.0 billion to \$1.3 billion, net of tax, as of the transition date of January 1, 2021;
- accumulated other comprehensive income by \$3.2 billion to \$5.2 billion, net of tax, as of December 31, 2021; and
- accumulated other comprehensive income by \$5.1 billion to \$7.1 billion, net of tax, as of the transition date of January 1, 2021.

The LDTI adoption impacts, including the 24% tax rate assumed in the above figures, are estimates and subject to change due to ongoing review and refinement of actuarial assumptions and projection models, additional review of tax impacts across various tax jurisdictions and additional implementation guidance. Additionally, the ultimate impact on retained earnings and accumulated other comprehensive income upon adoption of LDTI on January 1, 2023, may differ materially from the above figures based on the performance of the Company's business during 2022 and macroeconomic conditions, including changes in interest rates. Please see the Company's quarterly earnings presentation furnished as Exhibit 99.3 to the Company's Current Report on Form 8-K filed with the U.S. Securities and Exchange Commission on August 4, 2022, for additional details.

Dividend Declaration

Effective August 2, 2022, the board of directors declared a regular quarterly dividend of \$0.80, payable August 30, 2022, to shareholders of record as of August 16, 2022.

Additionally, the Company posts periodic reports, press releases and other useful information on its Investor Relations website.

Use of Non-GAAP Financial Measures

RGA uses a non-GAAP financial measure called adjusted operating income as a basis for analyzing financial results. This measure also serves as a basis for establishing target levels and awards under RGA's management incentive programs. Management believes that adjusted operating income, on a pre-tax and after-tax basis, better measures the ongoing profitability and underlying trends of the Company's continuing operations, primarily because that measure excludes substantially all of the effect of net investment related gains and losses, as well as changes in the fair value of certain embedded derivatives and related deferred acquisition costs. These items can be volatile, primarily due to the credit market and interest rate environment, and are not necessarily indicative of the performance of the Company's underlying businesses. Additionally, adjusted operating income excludes any net gain or loss from discontinued operations, the cumulative effect of any accounting changes, tax reform and other items that management believes are not indicative of the Company's ongoing operations. The definition of adjusted operating income can vary by company and is not considered a substitute for GAAP net income.

Book value per share excluding the impact of AOCI is a non-GAAP financial measure that management believes is important in evaluating the balance sheet in order to ignore the effects of unrealized amounts primarily associated with mark-to-market adjustments on investments and foreign currency translation.

Adjusted operating income per diluted share is a non-GAAP financial measure calculated as adjusted operating income divided by weighted average diluted shares outstanding. Adjusted operating return on equity is a non-GAAP financial measure calculated as adjusted operating income divided by average stockholders' equity excluding AOCI. Similar to adjusted operating income, management believes these non-GAAP financial measures better reflect the ongoing profitability and underlying trends of the Company's continuing operations, they also serve as a basis for establishing target levels and awards under RGA's management incentive programs.

Reconciliations from GAAP net income, book value per share, net income per diluted share and average stockholders' equity are provided in the following tables. Additional financial information can be found in the Quarterly Financial Supplement on RGA's Investor Relations website at <u>www.rgare.com</u> in the "Financial Information" section.

Cautionary Note Regarding Forward-Looking Statements

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 including, among others, statements relating to projections of the future operations, strategies, earnings, revenues, income or loss, ratios, financial performance and growth potential of the Company. Forward-looking statements often contain words and phrases such as "intend," "expect," "project," "estimate," "predict," "anticipate," "should," "believe" and other similar expressions. Forward-looking statements are based on management's current expectations and beliefs concerning future developments and their potential effects on the Company. Forward-looking statements are not a guarantee of future performance and are subject to risks and uncertainties, some of which cannot be predicted or quantified. Future events and actual results, performance, and achievements could differ materially from those set forth in, contemplated by or underlying the forward-looking statements.

The effects of the COVID-19 pandemic and the response thereto on economic conditions, the financial markets and insurance risks, and the resulting effects on the Company's financial results, liquidity, capital resources, financial metrics, investment portfolio and stock price, could cause actual results and events to differ materially from those expressed or implied by forward-looking statements. Further, any estimates, projections, illustrative scenarios or frameworks used to plan for potential effects of the pandemic are dependent on numerous underlying assumptions and estimates that may not materialize. Additionally, numerous other important factors (whether related to, resulting from or exacerbated by the COVID-19 pandemic or otherwise) could also cause results and events to differ materially from those expressed or implied by forward-looking statements, including, without limitation: (1) adverse changes in mortality, morbidity, lapsation or claims experience, (2) inadequate risk analysis and underwriting, (3) adverse capital

and credit market conditions and their impact on the Company's liquidity, access to capital and cost of capital, (4) changes in the Company's financial strength and credit ratings and the effect of such changes on the Company's future results of operations and financial condition, (5) the availability and cost of collateral necessary for regulatory reserves and capital, (6) requirements to post collateral or make payments due to declines in market value of assets subject to the Company's collateral arrangements, (7) action by regulators who have authority over the Company's reinsurance operations in the jurisdictions in which it operates, (8) the effect of the Company parent's status as an insurance holding company and regulatory restrictions on its ability to pay principal of and interest on its debt obligations, (9) general economic conditions or a prolonged economic downturn affecting the demand for insurance and reinsurance in the Company's current and planned markets, (10) the impairment of other financial institutions and its effect on the Company's business, (11) fluctuations in U.S. or foreign currency exchange rates, interest rates, or securities and real estate markets, (12) market or economic conditions that adversely affect the value of the Company's investment securities or result in the impairment of all or a portion of the value of certain of the Company's investment securities, that in turn could affect regulatory capital, (13) market or economic conditions that adversely affect the Company's ability to make timely sales of investment securities, (14) risks inherent in the Company's risk management and investment strategy, including changes in investment portfolio yields due to interest rate or credit quality changes, (15) the fact that the determination of allowances and impairments taken on the Company's investments is highly subjective. (16) the stability of and actions by governments and economies in the markets in which the Company operates, including ongoing uncertainties regarding the amount of U.S. sovereign debt and the credit ratings thereof, (17) the Company's dependence on third parties, including those insurance companies and reinsurers to which the Company cedes some reinsurance, third-party investment managers and others, (18) financial performance of the Company's clients, (19) the threat of natural disasters, catastrophes, terrorist attacks, epidemics or pandemics anywhere in the world where the Company or its clients do business, (20) competitive factors and competitors' responses to the Company's initiatives, (21) development and introduction of new products and distribution opportunities. (22) execution of the Company's entry into new markets. (23) integration of acquired blocks of business and entities. (24) interruption or failure of the Company's telecommunication, information technology or other operational systems, or the Company's failure to maintain adequate security to protect the confidentiality or privacy of personal or sensitive data and intellectual property stored on such systems, (25) adverse litigation or arbitration results, (26) the adequacy of reserves, resources and accurate information relating to settlements, awards and terminated and discontinued lines of business, (27) changes in laws, regulations, and accounting standards applicable to the Company or its business, including Long Duration Targeted Improvement accounting changes and (28) other risks and uncertainties described in this document and in the Company's other filings with the Securities and Exchange Commission ("SEC").

Forward-looking statements should be evaluated together with the many risks and uncertainties that affect the Company's business, including those mentioned in this document and described in the periodic reports the Company files with the SEC. These forward-looking statements speak only as of the date on which they are made. The Company does not undertake any obligation to update these forward-looking statements, even though the Company's situation may change in the future. For a discussion of these risks and uncertainties that could cause actual results to differ materially from those contained in the forward-looking statements, you are advised to see Item 1A - "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, as may be supplemented by Item 1A - "Risk Factors" in the Company's subsequent Quarterly Reports on Form 10-Q.
