

Reinsurance Group Of America Reports 13 Percent Increase In Operating Earnings Per Share For Second Quarter

July 26, 2001

ST. LOUIS--(BUSINESS WIRE)--July 26, 2001--Reinsurance Group of America, Incorporated (NYSE:RGA) reported operating earnings from continuing operations of \$0.72 per diluted share for the second quarter, up 13 percent from \$0.64 per diluted share reported in the prior year. Operating earnings from continuing operations totaled \$35.8 million for the quarter, up 12 percent from the prior-year total of \$32.0 million. Net income for the quarter, including capital gains and losses and discontinued operations, rose to \$30.5 million, or \$0.61 per diluted share, from \$18.9 million, or \$0.38 per diluted share, the year before.

Second quarter premiums increased 12 percent, to \$387.3 million from \$345.4 million in 2000. Consolidated revenues increased 11 percent, to \$465.5 million from \$419.3 million in 2000.

President and Chief Executive Officer A. Greig Woodring commented, "We are pleased with the quarter's operating results. Mortality experience during the quarter was generally as expected in all segments, as the poor mortality experience reflected in the first quarter did not recur. On a year-to-date basis, consolidated net premiums are up 17 percent, which is within our long-term range of expectations."

Woodring continued, "Our U.S. and Canada operations continued to drive our results, representing 84 percent of the premium flow in the quarter. Moreover, these segments contributed \$61.3 million in pre-tax operating income, up approximately 10 percent over the year-earlier levels, which benefited from favorable mortality. Net premiums in the U.S. segment for the quarter totaled \$280.5 million, a 12 percent increase. Net premiums in Canada declined 4 percent, primarily as a result of weakness in the Canadian dollar and the timing of reported premiums on certain blocks of business.

"RGA's international operations reported a good quarter with operating earnings of \$0.7 million versus a modest loss in the prior year. Net premiums totaled \$62.7 million during the quarter. In particular, we saw robust activity in Asia Pacific and our other international markets, primarily the UK and South Africa. Net premiums for these operations increased 62 percent from the prior year quarter. Results in our international segment continue to fluctuate from period to period due to the relatively small scale of these operations."

Woodring concluded, "Overall, the quarter was in line with our expectations. We still see strong fundamentals driving our growth, and believe the various markets in which we operate continue to present growth opportunities."

For the first half of 2001, operating earnings from continuing operations were \$59.2 million, or \$1.19 per diluted share, compared with \$58.9 million, or \$1.18 per diluted share, in the year-ago period. Net income, including discontinued operations and capital gains and losses, increased to \$52.2 million, or \$1.04 per diluted share, from \$39.3 million, or \$0.79 per diluted share, the year before. Consolidated premiums were up 17 percent, to \$791.9 million from \$674.9 million.

The company announced that its board of directors declared a regular quarterly dividend of \$0.06 per share. The dividend is payable August 28 to shareholders of record as of August 7.

A conference call to discuss the company's second quarter results will begin at 9:00 a.m. Eastern Daylight Time on Friday July 27. A live audio webcast of the conference call will be available on the company's investor relations web page at www.rgare.com. A replay of the conference call will be available on the company's website for 10 days following the conference call.
