

Reinsurance Group of America Reports Third Quarter Results; Anticipates Fourth Quarter Charge for Argentine Pension Business

October 26, 2001

ST. LOUIS--(BUSINESS WIRE)--Oct. 26, 2001--Reinsurance Group of America, Incorporated (NYSE:RGA), one of North America's leading providers of life reinsurance, reported operating earnings from continuing operations of \$25.7 million, or \$0.52 per diluted share, for the third quarter compared with \$32.7 million, or \$0.66 per diluted share, in the prior year. Net income for the quarter, including capital gains and losses and discontinued operations, totaled \$9.0 million, or \$0.18 per diluted share, compared with \$29.1 million, or \$0.59 per diluted share in the prior year.

Third quarter net premiums increased 23 percent, to \$387.8 million from \$316.1 million in 2000. Consolidated net investment income increased 10 percent, to \$90.7 million from \$82.1 million.

"As we announced on October 17th, the third quarter operating results include net losses associated with the terrorist attacks on September 11th," said A. Greig Woodring, president and chief executive officer. "Based on the claims development to date and analysis of our reinsurance programs, we reflected net claims of approximately \$10 million, after tax, or \$0.20 per share, attributable to the terrorist attacks. It will take several more months before we have seen the ultimate claims development. Our net losses are not significant to our financial position, and we will be able to meet all our obligations and remain a financially strong company. We believe the life reinsurance industry, as a whole, will do the same."

Woodring continued, "We are pleased with the premium growth for the quarter. In particular, net premiums for the U.S. segment increased to \$280.0, or 21 percent, from \$231.4 in the prior year quarter, driven by production in our traditional business. Pre-tax operating income for the quarter was \$35.9 million compared with \$51.8 million a year ago. Excluding the effect of the terrorist attacks, pre-tax operating income in the U.S. was approximately equal to the prior year, a period in which we experienced favorable mortality and very strong results.

"Premiums in Canada were essentially flat compared with a year ago. Pre-tax operating income for the quarter was at \$8.8 million compared with \$5.1 million in the prior year, a period in which Canada experienced unfavorable mortality results. Quote activity in the market is good and we have been very pleased with our success rate there.

"We saw a continuation of premium growth in our international segment. Net premiums for the quarter totaled \$67.9 million compared with \$45.0 million a year ago. The premium growth was driven primarily by our operations in Asia Pacific and other international markets, primarily the UK and South Africa. Together, those operations reported \$2.2 million in pre-tax profits and have made excellent progress in their markets.

"Latin America reported a \$3.4 million pre-tax operating loss due primarily to the occurrence of poor experience associated with the reinsurance of Argentina's privatized pension program. We are reviewing the recent experience of this business, and several aspects of the pension fund claims flow are not developing as was contemplated when the reinsurance programs were initially priced. We are considering a reserve addition in the fourth quarter. Any reserve addition would result in a non-cash charge to fourth quarter results, and could range from \$25 million to \$35 million, on a pre-tax basis. We no longer write this business and believe these additional reserves may be needed to absorb claims development associated with the run-off of the current treaties. We expect to conclude our analysis in the next several weeks. Additionally, in an effort to further reduce our exposure to what has become an extremely volatile Argentine economy, we sold a significant amount of our Argentine based bond investments during the third quarter. This action resulted in \$17.7 million in realized investment losses, on a pre-tax basis."

Woodring concluded, "While disappointing, the unexpected charges this quarter and next quarter are manageable and do not alter our plans for growth in our core businesses."

For the first nine months of 2001, the company reported operating earnings from continuing operations of \$84.9 million compared with the prior-year total of \$91.6 million. Operating earnings per diluted share from continuing operations totaled \$1.70 compared with \$1.83 reported the year before. Net premiums totaled \$1,179.7 million compared with \$991.1 million the year before.

During the quarter, the company announced that its board of directors approved a stock repurchase plan authorizing the company to purchase up to \$25 million of its shares of stock, as conditions warrant. To date, the company has not purchased any shares under this plan. The company also announced that its board of directors declared a regular quarterly dividend of \$0.06 per share, payable November 27 to shareholders of record as of November 6.

A conference call to discuss the company's third quarter results will begin at 9:00 a.m. Eastern Time on Friday October 26. A live audio webcast of the conference call will be available on the company's investor relations web page at www.rgare.com. A replay of the conference call will be available at the same address for ten days following the conference call.
