

### Reinsurance Group Of America Reports Increases In Fourth-Quarter Revenues And Earnings

January 29, 2004

ST. LOUIS--(BUSINESS WIRE)--Jan. 29, 2004--Reinsurance Group of America, Incorporated (NYSE: RGA), one of North America's leading providers of life reinsurance, reported net income for the fourth quarter of \$56.1 million, or \$0.99 per diluted share, compared with net income of \$33.4 million, or \$0.67 per diluted share in the prior-year quarter, a 48 percent increase on a per-share basis. Net income in the current quarter includes an after-tax gain of approximately \$9.0 million related to the newly adopted accounting standard on embedded derivatives in certain reinsurance contracts. Fourth-quarter net premiums increased 60 percent, to \$942.4 million from \$590.6 million in 2002. Net premiums in the quarter include \$246.1 million associated with the recently completed transaction with Allianz Life.

RGA uses a non-GAAP financial measure called operating income as a basis for analyzing financial results. This measure also serves as a basis for establishing target levels and awards under RGA's management incentive programs. Management believes that operating income, on a pre-tax and after-tax basis, better measures the ongoing profitability and underlying trends of the company's continuing operations because that measure excludes the effect of net realized capital gains and losses, changes in the fair value of embedded derivatives and related deferred acquisition costs. These items tend to be highly variable primarily due to the credit market and interest rate environment and are not necessarily indicative of the performance of our underlying businesses. Additionally, operating income excludes any net gain or loss from discontinued operations, which management believes is not indicative of the company's ongoing operations. The definition of operating income can vary by company and is not considered a substitute for GAAP net income. Reconciliations of GAAP net income to operating income are provided in the tables immediately following the text of this press release.

Operating income for the quarter increased 12 percent on a per- share basis and totaled \$48.2 million, or \$0.85 per diluted share compared to \$37.8 million, or \$0.76 per diluted share in the year-ago quarter. "Our results reflect strong premium and earnings growth across all operating segments of our business," said A. Greig Woodring, president and chief executive officer.

"Pre-tax net income in the U.S. for the quarter totaled \$72.4 million compared with \$43.5 million in the prior-year quarter. Pre-tax operating income for the quarter totaled \$58.0 million compared with \$48.5 million in the prior-year quarter. Pre-tax operating income for the U.S. Traditional operations in the current quarter includes approximately \$10.5 million from the recently acquired Allianz business. Mortality experience was within our range of expectations. Strong year-over-year results in the traditional operations were offset somewhat by a decrease in income from our asset-intensive operations, primarily due to credit losses within the funds withheld portfolios and several large transactions recorded in the prior-period quarter. Premiums in the U.S. increased \$277.2 million, or 68 percent over the prior-year quarter. Approximately \$246.1 million of that increase is from the Allianz business. For the year premiums increased 28 percent.

"Canada reported a good quarter, with pre-tax net income of \$16.0 million compared with \$11.2 million in the prior-year quarter. Pre-tax operating income totaled \$14.7 million, up 30 percent from \$11.3 million in the prior-year quarter. Mortality experience was consistent with expectations. Net premiums increased 25 percent for the quarter and 18 percent for the year. Results for the quarter and year benefited from an increase in the strength of the Canadian dollar. On an original currency basis, premiums for the quarter and year increased approximately 5 percent and pre-tax operating income increased approximately 11 percent and 7 percent, respectively.

"Other International operations, which exclude Canada, continued their strong growth, with net premiums increasing 46 percent to \$197.5 million in the fourth quarter. On an original currency basis, premiums increased 28 percent. Pre-tax net income totaled \$17.7 million compared with \$1.0 million in the prior-year quarter. Pre-tax operating income for the quarter totaled \$15.7 million, a significant increase over the breakeven result in the prior-year period. Approximately \$1.5 million of that total was the result of favorable currency fluctuations. For the year, pre-tax operating income totaled \$36.3 million compared to \$9.1 million in the prior year. Approximately \$3.3 million of the current-year amount was due to favorable currency fluctuations. Segment-wide mortality experience for the quarter was consistent with expectations. We continue to see good profit expansion from these operations as reinsurance in force increases; however, results may continue to be more volatile than our more established operations in North America due to the smaller relative size of this segment's base of business."

For 2003, net income totaled \$173.1 million, or \$3.36 per diluted share, compared with \$122.8 million, or \$2.47 per diluted share, in 2002. Operating income increased to \$166.2 million, or \$3.22 per diluted share, from \$139.2 million, or \$2.80 per diluted share, the year before, a 15 percent increase on a per share basis. Consolidated premiums were up 33 percent, to \$2,643.2 million from \$1,980.7 million.

Woodring continued, "We completed a successful common equity offering during the quarter, issuing 12,075,000 new shares with net proceeds to the company totaling \$427 million. The proceeds will be used to support our growth, both domestically and abroad, although we do not expect to open any new international offices in 2004. Additionally, we closed our transaction with Allianz as planned, and the transition of the treaty information to our systems is on schedule. These significant events capped off a very successful 2003 for RGA. As we look to 2004, we expect operating earnings per share to be within a range of \$3.40 to \$3.65, reflecting premium growth of between 15 to 18 percent and stable investment yields."

The company announced that its board of directors declared a regular quarterly dividend of \$0.06 per share, payable February 27 to shareholders of record as of February 6.

A conference call to discuss the company's fourth-quarter results will begin at 9 a.m. Eastern Time on Friday, January 30. Interested parties may access the call by dialing 800-262-1292 (domestic) or 719- 457-2680 (international). The access code is 676286.
