

### Reinsurance Group Of America Reports Third-Quarter Results; 50 Percent Dividend Increase

October 26, 2004

ST. LOUIS--(BUSINESS WIRE)--Oct. 26, 2004--Reinsurance Group of America, Incorporated (NYSE:RGA), a leading global provider of life reinsurance, reported net income for the third quarter of \$39.4 million, or \$0.63 per diluted share, compared to net income of \$41.8 million, or \$0.83 per diluted share in the prior-year quarter. This year's third-quarter net income was adversely affected by approximately \$0.25 per diluted share due to a negotiated claim settlement in the company's discontinued accident and health line of business. Third-quarter net premiums increased 43 percent, to \$819.5 million from \$573.0 million in 2003. Net investment income totaled \$144.6 million versus \$122.2 million the year before.

RGA uses a non-GAAP financial measure called operating income as a basis for analyzing financial results. The definition of operating income and reconciliations to GAAP net income are provided in the following tables. Operating income for the quarter increased 25 percent on a diluted per-share basis and totaled \$59.8 million, or \$0.95 per diluted share compared to \$38.0 million, or \$0.76 per diluted share in the year-ago quarter.

The company also announced that its board of directors increased the quarterly dividend by 50 percent to \$0.09 per share from \$0.06 per share, payable November 29 to shareholders of record as of November 8.

Commenting on the third quarter, A. Greig Woodring, president and chief executive officer, said, "We are very pleased with the operating results this quarter, particularly the strong top and bottom-line performance in the U.S. Net premiums in the U.S. increased \$170.5 million, or 46 percent over the prior-year quarter. The transaction with Allianz that we closed in the fourth quarter of 2003 contributed approximately \$122 million of net premiums to the quarter. Pre-tax net income in the U.S. for the quarter totaled \$72.0 million compared to \$45.3 million in the prior-year quarter. Pre-tax operating income for the quarter totaled \$78.4 million, a 68 percent increase over \$46.8 million reported in the prior-year quarter. Mortality experience was favorable during the current quarter versus unfavorable experience in the prior year. U.S. operations also include our Asset Intensive and Financial Reinsurance businesses, each of which posted solid results.

"Our Canada operations reported pre-tax net income of \$15.8 million compared to \$19.5 million a year ago. The prior-year amount included \$8.6 million in realized capital gains compared to minimal realized capital losses this year. Pre-tax operating income was strong, totaling \$15.9 million, up 46 percent from \$10.9 million. Mortality experience continues to be favorable. Net premiums increased \$6.1 million, or 11 percent for the quarter, and totaled \$59.2 million. Approximately \$2.9 million of the increase in net premiums and approximately \$0.8 million of the increase in pre-tax operating income were the result of a favorable currency exchange rate.

"Other International operations, which include our Asia Pacific and Europe and South Africa segments, continued their strong growth, with net premiums increasing 47 percent to \$220.2 million in the quarter. Stronger foreign currencies contributed approximately \$19.2 million to the premium growth. Pre-tax net income totaled \$8.2 million compared to \$9.6 million in the prior-year quarter. Pre-tax operating income for the quarter totaled \$7.6 million, a decline from the \$8.7 million result in the prior-year period. Foreign currency appreciation contributed approximately \$0.2 million to current quarter pretax operating income. Results were adversely affected by unfavorable mortality in Asia Pacific. As previously indicated, results in these newer operations may be more volatile than our North America operations due to the smaller size and relative aging of this business.

"Our discontinued accident and health operation reported a net loss of \$18.6 million, due primarily to the negotiated settlement of all disputed claims associated with our largest identified accident and health exposure. By resolving this disagreement, we have significantly reduced the amount of disputed claims in excess of our reserves in the accident and health operation. We are pleased to put this particular disagreement behind us, since the disputed amounts totaled approximately \$77 million. We now have remaining \$28 million of total accident and health claims under dispute or currently subject to audit."

For the first nine months of 2004, net income totaled \$166.5 million, or \$2.65 per diluted share, compared to \$117.1 million, or \$2.34 per diluted share, in the year-ago period. Operating income increased to \$169.1 million, or \$2.69 per diluted share, from \$118.0 million, or \$2.36 per diluted share. Consolidated premiums were up 43 percent, to \$2,430.6 million from \$1,700.7 million.

Woodring concluded, "We are pleased with the operating results for the third quarter and first nine months of 2004. On a year-to-date basis, operating income per diluted share is up 14 percent, an excellent result, particularly considering our large equity offering in late 2003. Additionally, during the quarter, the UK trade magazine The Review - Worldwide Reinsurance named RGA "Life Reinsurance Company of the Year". The award recognizes RGA as a company that shows consistent financial performance, offers superior service and security to clients, and displays the ability to adapt to market and industry changes. We certainly believe this to be the case and are honored to have received this award."

A conference call to discuss the company's third-quarter results will begin at 9 a.m. Eastern Time on Wednesday, October 27. Interested parties may access the call by dialing 800-210-9006 (domestic) or 719- 457-2621 (international). The access code is 762818. ### CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, among others, statements relating to projections of the earnings, revenues, income or loss, future financial performance and growth potential of Reinsurance Group

of America, Incorporated and its subsidiaries (which we refer to in the following paragraphs as "we," "us" or "our"). The words "intend," "expect," "project," "estimate," "predict," "anticipate," "should," "believe," and other similar expressions also are intended to identify forward-looking statements. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Future events and actual results, performance and achievements could differ materially from those set forth in, contemplated by or underlying the forward-looking statements.

Numerous important factors could cause actual results and events to differ materially from those expressed or implied by forward-looking statements including, without limitation, (1) adverse changes in mortality, morbidity or claims experience, (2) changes in our financial strength and credit ratings or those of MetLife, Inc. ("MetLife"), the beneficial owner of a majority of our common shares, or its subsidiaries, and the effect of such changes on our future results of operations and financial condition, (3) general economic conditions affecting the demand for insurance and reinsurance in our current and planned markets, (4) market or economic conditions that adversely affect our ability to make timely sales of investment securities, (5) risks inherent in our risk management and investment strategy, including changes in investment portfolio yields due to interest rate or credit quality changes, (6) fluctuations in U.S. or foreign currency exchange rates, interest rates, or securities and real estate markets, (7) adverse litigation or arbitration results, (8) the adequacy of reserves relating to settlements, awards and terminated and discontinued lines of business, (9) the stability of governments and economies in the markets in which we operate, (10) competitive factors and competitors' responses to our initiatives, (11) the success of our clients, (12) successful execution of our entry into new markets, (13) successful development and introduction of new products, (14) our ability to successfully integrate and operate reinsurance business that we acquire, including without limitation, the traditional life reinsurance business of Allianz Life, (15) regulatory action that may be taken by state Departments of Insurance with respect to us, MetLife, or its subsidiaries, (16) our dependence on third parties, including those insurance companies and reinsurers to which we cede some reinsurance, third-party investment managers and others, (17) changes in laws, regulations, and accounting standards applicable to us, ou

Forward-looking statements should be evaluated together with the many risks and uncertainties that affect our business, including those mentioned in this document and described in the periodic reports we file with the Securities and Exchange Commission. These forward-looking statements speak only as of the date on which they are made. We do not undertake any obligations to update these forward-looking statements, even though our situation may change in the future. We qualify all of our forward-looking statements by these cautionary statements.

#### Operating Income

RGA uses a non-GAAP financial measure called operating income as a basis for analyzing financial results. This measure also serves as a basis for establishing target levels and awards under RGA's management incentive programs. Management believes that operating income, on a pre-tax and after-tax basis, better measures the ongoing profitability and underlying trends of the company's continuing operations, primarily because that measure excludes the effect of net realized capital gains and losses, as well as changes in the fair value of embedded derivatives and related deferred acquisition costs. These items tend to be highly variable, primarily due to the credit market and interest rate environment and are not necessarily indicative of the performance of the company's underlying businesses. Additionally, operating income excludes any net gain or loss from discontinued operations and the cumulative effect of any accounting changes, which management believes are not indicative of the company's ongoing operations. The definition of operating income can vary by company and is not considered a substitute for GAAP net income.
